Included work

August 28, 2026 · Cedar House · Lease review

1 recorded hour × $200 reference rate = $200 reference work value.
$200 ÷ $800 matter work value = 25% share.
25% × $2,100 fee pool = **$525.00 fee credit**.
$525 ÷ $200 reference rate = **2.625 credited hours**.

Reference rate: confirmed fictional source rate. Rounding adjustment: $0.00. Recorded time remains 1 hour.

This statement includes Jordan's entries and matter-level totals. Other people's individual entries are excluded.

Cumulative from each included matter's beginning through the work-date cutoff. This is not a monthly or quarterly amount. Do not add overlapping reports together.

Fee credit is an internal allocation, not wages, compensation entitlement, payment, or revenue recognition. Credited hours express fee credit at the recorded reference rates; they are not time worked.
